**How to Listen for God's Voice in
an Earbud-wearing World**

Presented by Deacon Allen Tatara

We love listening to music. It defines who we are and helps us tune out the rest of the world. There is the problem! This talk will help you understand why you may not be able to hear God's voice, and provide steps that you can follow in order to hear God speaking to you.

Deacon Allen motivates groups of all ages to a greater awareness of how to recognize God's presence in their daily live through a blend of storytelling, humor, audience participation, music, and deep-seed spirituality.
